gisthive@gmail.com | +2348035336810

ABOUT ME

From Akwa Ibom, Nigeria and is highly experienced in full stack website and web app development. Fluent with major web development frameworks as ReactJS and VueJS. Backend experience is not lacking as I have skills in databases, Python, PHP, nodejs along with their popular frameworks as Django, Laravel and ExpressJS.

WORK EXPERIENCE

Coastal Nigeria

Executive level | Web Developer

Uyo , Nigeria

2020-04-01 | Currently working here

Building the website coatal.com.ng and managing it's databases. Designing proposed features using figma and creating WordPress plugins for it's WordPress website. Security and cross site origin forgery as well as Search Engine Optimization services was part of the job as well. In summary, my job was to be the chief go-to IT staff to take care if every technical aspect of the website.
